

The SpilMax® range of absorbents have undergone extensive testing to ensure their absorbency and performance.

SpilMax® Universal Absorbent Rolls are the perfect solution for managing spills in any workplace. These absorbent rolls are designed to absorb a wide range of liquids, including oils, coolants, solvents, and water-based fluids.

These Universal Absorbent Pads come in a pack of 200 and are perfect for use in workshops, factories, garages, and other industrial settings. They are easy to use, simply place them on the spill, and watch as they quickly absorb the liquid.

Made from high-quality polypropylene material, our absorbent pads offer excellent absorbency and durability. Each pad absorbs 1L per saturation and has a tough outer layer that prevents leaks and tearing, ensuring that your workplace stays clean and safe. Pads can be wrung out and reused many times during spill clean up.

TESTING: ASTM Test Method F726-06 “Sorberent Performance of Absorbents” to test maximum oil capacity.

CODE	GSM	SIZE	DIMENSIONS	WEIGHT
CH1311	200gsm	43mL x 960mmW Roll	0.35mL x 0.35mW x 0.96mH	8 kg
CH13113	200gsm	43mL x 480mmW Half Roll	0.35mL x 0.35mW x 0.48mH	4 kg
