COMPLIANT

H01064 COIL E-TETHER WITH STEEL CLAMP & E-CATCH

1.1 LB **0.5** KG

MAX LOAD:

An exceptionally strong steel clasp connected to an industrial-grade PU coil creates a tether suitable for securing small electronic devices in harsh work environments.

The tether clamps securely onto any material with a thickness over 3.0mm/0.1", such as a pocket liner or shirt collar.

- Side-release attachment dock with a simple choking mechanism
- Industrial grade PU coil

KEY FEATURES

Industrial grade
PU coil

Low profile &
lightweight

Heavy-duty
steel clamp

GRIPPS® E-Catch
included to attach to
electronic devices

HOW TO USE

1

Peel cover from one side of the adhesive pad and attach to the E-Catch. Peel cover from other side and attach to a non-porous location on the device.

2

Secure E-Tether to E-Catch by first feeding loop through the connector point, then feed the E-Tether back through the loop to create a choke.

Press side-release buttons to hot-swap between different electronic devices. Ensure attachment dock 'clicks' back into place.

3

If anchoring to clothing, ensure you clip the tether onto thick fabric such as your collar or pocket lining.
