## H01061 COIL E-TETHER WITH POLY CLIP & E-CATCH (NON-CONDUCTIVE)

*The Coil E-Tether With Poly Clip (Non-Conductive) contains no metal parts and is suitable for securing small electronic devices against drops in live electrical environments.*

A single-action poly clip with a swivel head allows full freedom of movement without tangles while tethering your phone, camera, radio or other electronic devices.

- Side-release attachment dock with a simple choking mechanism
- Industrial grade PU coil

**1.1** LB **0.5** KG

MAX LOAD:

THE LEADER IN FALLING OBJECT PREVENTION

## KEY FEATURES

## HOW TO USE

1

Peel cover from one side of the adhesive pad and attach to the E-Catch. Peel cover from other side and attach to a non-porous location on the device.

2

Secure E-Tether to E-Catch by first feeding loop through the connector point, then feed the E-Tether back through the loop to create a choke.

3

Secure via carabiner to your anchor point. Press side-release buttons to hot-swap between different electronic devices. Ensure attachment dock 'clicks' back into place.
