## H01010 V-GRIPP TAPE

***GRIPPS® V-Gripp Tape uses self-vulcanizing technology to create a load-rated tool connection point without the use of any adhesives.***

Used with the GRIPPS® Tool Catch and Tool Hitch range, V-Gripp Tape is extremely easy to apply, bonding to itself instantly on application. Extremely durable GRIPPS® V-Gripp Tape is excellent for on-site and in extreme conditions.

## KEY FEATURES

Extremely resilient  
and long lasting

Self-Vulcanizing,  
doesn't rely  
on chemical adhesives

Heat resistant  
to 150°C/302°F

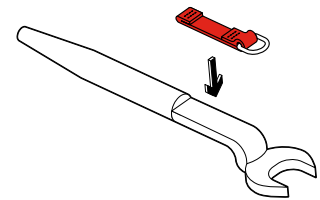

Resistant to  
water and oil

## SPECIFICATIONS

SKU	WIDE	LONG
H01010	25MM   1.0"	2.7M   106"

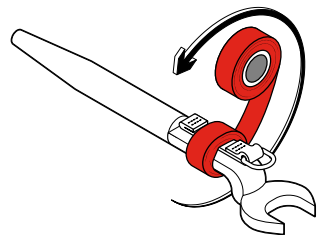

## HOW TO USE

1

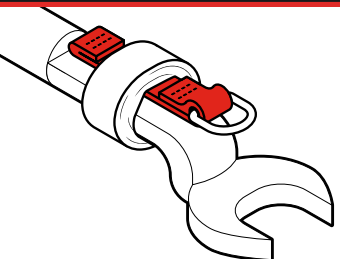

Place Tool Catch with metal ring facing away from the tools center of gravity, white tag facing up.

2

Wrap the tape around the tool 10x while stretching the tape to activate the self-vulcanizing feature, creating a secure connection. Ensure raised 'catch' is not covered by the tape. Pull on Tool Catch with force to test application.

3

Your Tool Catch is now ready to be connected with a suitable GRIPPS® tether via the D-Ring.
