

Drägersorb® 400 Closed Circuit Breathing Apparatus

Drägersorb® 400 is used to absorb acid gases, such as carbon dioxide (CO₂), in closed or semi-closed circuit breathing apparatus.

Benefits

High CO₂ absorption capacity

The large inner active surface ensures a high CO₂ absorption capacity.

Reproducible absorption

An even filling of the absorbent cartridge enables reproducible absorption results.

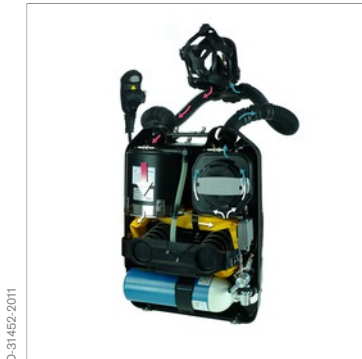

High abrasion resistance

High abrasion resistance ensures reduced generation of dust.

Low breathing resistance

Due to the hemispherical pellet form and the uniform packing density, Drägersorb 400 provides low breathing resistance during use.

System components

Dräger PSS® BG 4 plus

Designed especially for tough missions: The Dräger PSS® BG 4 plus closed circuit breathing apparatus combines uncompromising safety with the highest level of breathing and carrying comfort. The unit supplies the wearer with up to 4 hours of breathing air, even in toxic atmospheres.

Accessories

D-23525-2009

sundry accessories

- disposable cartridge
part number: R34360
- reusable cartridge
part number: R34367
- DrägerSorb canister
part number: 6737965, 6737985, 6755001
