

Dräger FPS® 7000 SCBA Full Face Mask

Firefighting requires working under hazardous conditions with poor visibility. Designed to offer optimal visibility, the Dräger FPS 7000 full face mask sets new standards in terms of personal safety, protection and comfort. The popularity of this SCBA mask is due to a large, unobstructed field of vision and a very comfortable and secure fit, while reducing or eliminating fogging during use.

Large, unobstructed field of vision (180° view)

Anti-scratch, APEC visor for distortion-free vision; distributes air evenly to prevent fogging

5-point harness

Quick donning/doffing hairnet conforms to head for comfortable fit

Optimal protection and fit

Available in three sizes, with double sealing body and three-fold sealing edges

Robust connection

Push to connect design which allows 360° rotation of lung demand valve (LDV)

Integrated accessories

Designed to support communication system, heads up display (HUD) receiver, and spectacle kit

Image shown is NFPA 2013 Edition version of the mask. When used with BG4s or earlier SCBA editions, the mask components may differ.

Benefits

180° field of vision offers unobstructed view

The Dräger FPS 7000 has a large distortion-free polycarbonate visor that gives you an exceptionally wide field of vision, even in the most challenging situations. To reduce or eliminate fogging of the lens, the innovative design provides an even distribution of air across the mask.

Secure and comfortable fit

At Dräger, we understand that faces come in different shapes and sizes—so we designed the FPS 7000 accordingly. The mask is available in three sizes and has a double-sealed body with triple-sealing edges to conform to the shape of the face. The mask comes in highly chemically resistant EPDM rubber with a hairnet that is designed to be donned and doffed quickly and easily.

Highly versatile mask supports multiple devices

Dräger's line of FPS 7000 full face masks are approved for use with the Dräger PSS® 7000 and PSS 5000 SCBA, and BG4 CCBA. As a result, each person only needs to be fit tested on one mask.

Seamless integration with communication systems

The Dräger FPS 7000 mask is designed to be integrated with the Dräger FPS-COM 5000 and FPS-COM 7000* communication systems. To offer the optimal solution for each communication need in the field, the mask can be tailored with the appropriate communication systems. Whether you need a voice amplifier, tactical radio interface or team communication, each can be directly integrated into the mask for easy use.

System Components

D-28800-2015

Dräger FPS® 7000 RP

The Dräger FPS® 7000 with an RP connection is the perfect complement to the Dräger PSS® BG 4 closed circuit breathing apparatus. Because the FPS® 7000 RP with hydration provides a source of relief, it is the ideal choice for long-duration missions such as tunnel and subway fires.

D-8585-2016

Dräger FPS®-COM 5000

In an emergency, there is no time for misunderstanding. That's why Dräger developed the FPS-COM 5000 communication unit for NFPA-certified SCBAs. Designed to connect seamlessly to the Dräger FPS® 7000 full-face masks, this proven communication unit ensures clear communication through either a tactical voice amplifier or a radio – even in extreme conditions.

D-8621-2016

Dräger FPS®-COM 7000

The Dräger FPS®-COM 7000 provides standalone hands-free communication along with optional connection to tactical radios. Voice-activated, the FPS-COM 7000 provides full-duplex communication on one of seven user-selected channels. Up to 10 users per channel can be connected without using a tactical radio, which is especially ideal for special operations like hazardous materials response teams.

D-9342-2014

Dräger C-C 550

This microphone/loudspeaker communications control unit connects standard tactical radios to the FPS®-COM 5000 and 7000 communication units and can also be used independently. For ease of use, the C-C550 includes two large push-to-talk buttons and a switch to transfer incoming signals to the speaker.

System Components

D-9339-2014

Dräger C-C440

Communications control unit with large Push-To-Talk button for easy handling of the radio transmitter. Tough and robust design that's waterproof (IP67) in extreme environments (MIL-STD-810G). ATEX versions are available.

ST-9504-2006

Spectacle kit

For people who wear glasses, the Dräger FPS 7000 can easily be equipped with spectacle kits.
Order number: R56230

ST-9907-2006

Dräger FPS® 7000 Head-up Display

One of the many benefits of the FPS® 7000 full-face mask is the head-up display (HUD) required by NFPA 1981. Always within the field of view the head-up display allows easy monitoring of the cylinder contents and battery status without any manual action by the wearer.

Services

D-19072-2016

Dräger Service

When your operation's safety equipment is backed by over 125 years of experience and supported by the same team that engineered it, you can rely on service and rental solutions that are tailored to meet your unique needs. With Dräger's safety solutions, you get complete peace of mind, budget security, and full-service support that you can count on every step of the way. That's the Dräger Service Advantage.

Related Products

D-1034-2015

Dräger PSS® 7000

Before you can protect the lives of others, you have to protect yourself. The Dräger PSS® 7000 self-contained breathing apparatus (SCBA) provides unmatched comfort, durability, and safety in the harshest environments. With unparalleled ergonomic performance, the PSS® 7000 combines trusted pneumatics, flexible fit, and cylinder Quick Connection, freeing the firefighter to concentrate on the task at hand.

D-998-2015

Dräger PSS® 5000

Effective firefighting requires trusted breathing protection in the harshest environments. The Dräger PSS® 5000 provides the budget-conscious fire department with an ergonomically advanced SCBA. With a wide range of features – such as bi-lateral hose routing and cylinder Quick Connection – the PSS® 5000 meets the needs for today's complex fire grounds.

Dräger PSS® 3000

The Dräger PSS® 3000 is a new generation of high-performing breathing apparatus for industrial applications. Combining comfort with exceptional performance, it is designed for applications where simplicity and ease-of-use are essential. Lightweight yet robust, and easy to wear, this advanced breathing apparatus provides the ultimate breathing protection.

D-1615-2009

Dräger PSS® BG 4 plus

Specially designed for demanding tasks, The Dräger PSS® BG 4 plus closed-circuit breathing apparatus combines uncompromising safety with outstanding respiratory protection and wearer comfort. Innovative in design, it provides the wearer with up to four hours of breathing air in toxic environments.

Technical Data

Mask body	Convenient, hypoallergenic and flexible silicone or EPDM (dermatologically tested)
Hairnet	5-point attached hairnet of flame retardant aramid fabric
Size	Mask body in 3 sizes (S/M/L); compatible with inner mask (nose cup) in 3 different sizes
Visor	APEC visor with anti-scratch coating (NFPA version); Polycarbonate visor available with different coatings (NIOSH version)
Connector	P, RA
Weight	Approx. 21 ounces (varies according to version)
Approval	EN 136 Class. 3, EN 137 type 2, NIOSH (some versions); NFPA 1981: 2013 Edition
