# RETRACTABLE QUICKSWAP DUAL TOOL HOLSTER

**CODE : H02076**

The Retractable Quickswap Dual Tool holster is both lightweight and rugged, providing two storage pouches for small hand tools and 2x Steel Retractors.

**INCLUDES 2X STEEL RETRACTORS**

AVAILABLE WITH OR  
WITHOUT RETRACTORS

H02075

H02077

H02078

Following suit to our original Quickswap Single Tool Holster, this new variation was developed due to high demand and includes retractors for your tethering needs. More storage, more convenience. Featuring our all-new Quickswap mechanism that allows the holster to be rapidly installed or removed from a work belt or harness, this will be another highly popular product amongst workers at height. The steel retractors allow for fast use of a tool and will immediately retract for a tangle-free solution.

The Quickswap mechanism is compatible with all belts & harnesses and allows for rapid connection or removal of the holster without having to take off the belt/harness.

MAX LOAD : 2.5KG / 5.5LBS
