

## Maxisafe Glove Clip

### Features & Benefits

- The Maxisafe Glove Clips interlocking teeth securely grip your gloves, earmuffs, helmet, towel, clothes or anything else you attach to them
- Proven to reduce glove replacement costs and hand injuries because workers have their gloves with them when needed
- To use, attach the small end around your belt loop or directly to your clothing and attach the large end to your gloves
- Made from specialised material that holds its memory and does not fatigue from use
- Designed to separate and break if the item being held is caught in machinery
- Simple but Effective!
- Available in colours Orange and Fluro Yellow

### Applications

- Any application where gloves are used
- Automotive industry
- Building and construction
- Logistics and warehousing
- Mining
